

Choral Count (Grades 1/2). Start at 4. Count by 5s

Organize count in rows with five numbers in each row, and record count vertically.

4	24	44	64	84	
9	29	49	69		
14	34	54	74		
19	39	59	79		

Math Ideas

- Patterns in the base 10 system.
- Patterns when counting by 5s.
- Connections to computational strategies.
- There are four 5s in 20.
- Computational strategies - adding across a decade number.

Possible Noticings

- In a column, there's a pattern in the ones place – 4, 9, 4, 9
- If I count four times, there are 20 more added on.
- There's a pattern across the first two rows in the tens place – 0, 2, 4, 6, 8. The ones stay the same - 4 4 4 4 4 or 9 9 9 9 9
- A diagonal goes up by 25.
- Every other row has 10 more.
